

May Day Against Imperialist War!

[message writ. 4/27/08] @'08 Mumia Abu-Jamal

Ona Move!

To all the German people who stand against imperialism, racism, and the resurgence of fascism-I greet you!

To our friends in Hamburg, in Kreuzberg, and beyond, it is a joy to join you on May Day, if only in spirit, and this day of celebration and remembrance of the power and sacrifice of labor.

I write these words in the knowledge that a great American labor union, the International Longshoreman & Warehouse Union (ILWU) will mark May Day by an 8-hour shut down of all ports on the US West Coast, from Mexico to Canada! This labor action is against the imperial war in Iraq and for peace!

I salute you in Germany on May Day, as you battle against imperial war, against fascism, against racism, and for solidarity among the peoples of our world!

Aus die Tödeszelle,
